

DHEERAJ YADAV

Full Stack Developer

dy516824@gmail.com | +91 6307217752 | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on professional experience building production-grade web applications using Node.js, Express.js, React.js, and MongoDB. Skilled in developing scalable, type-safe frontend applications with Next.js, TypeScript, and Tailwind CSS, with strong command of REST API design, component-based architecture, and Vercel deployment workflows. Known for writing clean, maintainable code, debugging efficiently, and delivering reliable features on schedule in a collaborative, cross-functional environment.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), TypeScript, React.js, Next.js (App Router), Tailwind CSS, shadcn/ui, Responsive Design

Backend: Node.js, Express.js, REST API Development, API Route Handlers, Server-Side Rendering (SSR), Static Site Generation (SSG)

Database: MongoDB (Atlas), SQL (Basic), JSON Data Handling

Testing: Postman, API Testing & Validation, Unit Testing, Debugging

Languages: JavaScript, TypeScript, Java, Python (Basic)

Tools & Platforms: Git, GitHub, Vercel, Render, VS Code, npm/pnpm, Chrome DevTools, ESLint

Concepts: Component Architecture, Custom React Hooks, MVC, CI/CD, Cross-Browser Compatibility, Agile Methodology

WORK EXPERIENCE

Full Stack Developer Trainee

Nov 2025 - Jun 2026

Azeosoft Web Technologies Pvt. Ltd. - Remote (Work From Home) | Noida, Uttar Pradesh | [azeosoft.com](#)

- Designed and developed server-side applications and RESTful APIs using Node.js and Express.js, following best practices for performance, scalability, and code quality.
- Built responsive, mobile-first UI components using React.js and Tailwind CSS, ensuring cross-browser compatibility and a consistent user experience.
- Tested, validated, and documented API endpoints using Postman, improving reliability of API contracts between frontend and backend teams.
- Designed MongoDB schemas and implemented CRUD operations with query optimization for efficient application data management.
- Debugged and unit-tested application features, contributing to automated test coverage that reduced regression issues.
- Planned, coordinated, and executed assigned tasks while maintaining detailed reports and records, and communicating effectively with clients, team members, and cross-functional departments.
- Recognized in official performance review as a hardworking, sincere, and self-starting team player with strong conceptual knowledge.

PROJECTS

Gen-Ji Digital Studio - Agency Website

Jun 2026

Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB (Atlas), Render, Vercel

Live: www.gen-ji.me

- Designed and built the marketing website for Gen-Ji Digital Studio, a web design and software development agency serving B2B SaaS and AI startup clients, covering Home, About, Services, Case Studies, Blog, and Contact.
- Implemented a conversion-focused homepage with service breakdowns (business websites, custom software, e-commerce, maintenance) and a clear 4-step engagement process for client onboarding.
- Built and deployed a Node.js/Express.js REST API backend with MongoDB Atlas to handle contact and quote-request form submissions, hosted on Render.
- Deployed the frontend on Vercel with custom domain configuration and performance-optimized, production-ready delivery.

AimHop - Security & Facility Services Website

Apr 2026

Next.js, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB (Atlas), REST API, Cloudinary, Render, Vercel
Live: www.aimhop.com

- Built the production frontend for AimHop Security Solutions Pvt. Ltd., a Gorakhpur-based security guarding, CCTV surveillance, and facility manpower services company, using Next.js and TypeScript.
- Developed location-specific, SEO-optimized service landing pages (armed/unarmed guards, corporate and event security, CCTV installation, manpower deployment) across multiple Uttar Pradesh cities.
- Built and deployed a Node.js/Express.js REST API backend with MongoDB Atlas to capture and store hiring requests, job applications, and contact form submissions, hosted on Render.
- Implemented lead-generation flows including client hiring requests and job application funnels, along with a testimonials and blog module to support business inquiries.
- Optimized image delivery using Cloudinary and Next.js Image components for fast, responsive page loads across all service and location pages.

School Management System

Nov 2025 - Apr 2026

Next.js, TypeScript, Tailwind CSS, shadcn/ui, Vercel

Live: school-project-ecru-phi.vercel.app

- Engineered a production-grade School Management System using Next.js with TypeScript, actively developed over 5 months with live deployment on Vercel.
- Implemented student entry management, dynamic data tables, and form-driven CRUD interfaces with server-side rendering for fast, SEO-friendly pages.

D2C (DirectToCart) - E-Commerce Marketplace Platform

Nov 2025

Next.js, TypeScript, Node.js, shadcn/ui, Tailwind CSS, REST API

Seller Panel: seller-dev.directtocart.com

Admin Panel: admin-dev.directtocart.com

- Architected and developed the Seller Panel and Admin Panel for a full-stack D2C e-commerce marketplace using Next.js App Router with TypeScript for a type-safe, production-ready codebase.
- Built a dedicated custom React Hooks layer to manage API data fetching, loading states, and error handling, separating business logic from UI.
- Developed a reusable REST API service and data-transformation layer consumed across both seller and admin interfaces.
- Integrated shadcn/ui with a custom Tailwind CSS configuration for a consistent, accessible design system across both panels.

Text-Based Adventure Game

Jun 2025

JavaScript, HTML5, CSS3, Vercel

Live: textbasedgame-wine.vercel.app

- Built a browser-based text adventure game with complex game-state management, branching story logic, an inventory system, and dynamic DOM rendering using vanilla JavaScript.

EDUCATION

B.Tech - Computer Science & Engineering

Aug 2022 - Aug 2025

Babu Banarasi Das Engineering College

Diploma - Architectural Assistantship

Aug 2018 - Aug 2021

Government Polytechnic, Deoria

TRAINING & CERTIFICATIONS

- Full Stack Web Development — Apna College (2024)
- Data Structures & Algorithms with Java — Apna College (2024), Credential ID: 683d653e7005bffe0b01616
- Software Engineering Job Simulation — Accenture via Forage (2024)

LANGUAGES & INTERESTS

Languages: English (Professional), Hindi (Native)

Interests: Listening to Music, Reading Books, Competitive Programming
